But rabbit shouling, with revolvers has been found to be extremely diffiguit, and though ecreral believe they have killed ino one Seeing by the rapers that the Italians continue gamekeeper of the Prices of Coorg, to whom to claim the battle of Lissa on the 20th uito, as a Ebenthal Cartis helonge; but this was considered

In 1865 there were 3.3% applications for nature bland. The Reiser had lost her bewapen, fore more than a third of the applications were considering the prominent part she had played third year by nonpayment of the £30 stains duty in the engagement. The number of killed and then payable, and about 90 per cent of the rewounded on board her was about a hundred, | mainder became word at the and of the seventh and in the whole squadron less than 200. No ship of the Austrians had been less or disabled, then payable to secure the patent for a second them they had freely used their wooden vessels against the Italian ironclade. That the office in 1865 amounted to £115.310. The fees to . Italians had been defeated is best proved by the Attorney-General and Soli-fror-General and the simple fact that the Austrian equation, their olerks showhed Elo. 18 tonmentations, whose sim in engaging the Italians bad been to £1454, the general expenditur, £32,15414 After roll-ve Lissa, was lying in the barbour of that further deducting what are go arded as "revenue island the day after the buttle with an enemy in stamp duties" there remained £17.327 surplus insight; in leed, one of the Austrian avisos, which come for the year. It is not considered that the had been sent to look after the whereabouts of fees are too heavy; a material reduction would the Italian fleet returned on the afternoon of tend to increase the number of nacless and the 21st and reported having "seen them into speculative patents, often taken merely for ad-Ancona, many of their vessels laidly crippled, vertising purposes. But the offices and the and in the of merchant steamers, which establishment having become quite inadequate had been sent to assist them in. The for the work to be done, it is represented that Austrian arise but even insulted them by fixing the surplus income of the department, now at the stermest of their chips, without any applied in increasing the public revenue, should of them turning in chase after her. Two of the be appropriated to the erection of suitable parent imlian ironclade had been positively destroyed. offices, library, and museum, the latter to serve as one, the largest of all, sunk, and another blown a historical and educational institution for the inp. The primare, about 40, with some of hearfit and instruction of skilled workmen; and

the Patents and Clerk of the Commissioners be number had been paralysed, and Austrian officers | officer the information necessary to enable blin to even stated, with great gloc, that the italian det rmine whether a provisi nal specification suffiships had frequently run into each other, thus ciently describes the nature of the invention, and supporting the enemy. Secondly, their mode of whether it is one for which a parent ought to be firing. They had always fired by divisions or granted a conras by which many grants of patents. concentrated broadsides, and these, frequently for friendons inventions would be prevented, and tive. The Italians had fired by single guns, and specting the nature of inventions a ughe to be paof c time much more rapidly than the Austrians, tented. The Gammissioners raport that the precausing a tremendant noise, but very hule real paration and publication of classified abstrauts or damage. The Austrians not only had a great in- sheid, menta of the specifications from the earliest forfority in the number of their game, but also in period to the present time continues; and copies the weight of metal; a considerable number of of these (each set of the Parent-office publications very heavy contated guns, destined for the iron. including upwards of 2,000 volumes) bave been clade, and constructed by Krupp, in Essen, had presented to the authorities of every important been retained by the Prussian Government, so that town in the kingdom on a undition of their being they had been compoiled to put the ordinary daily accessible to the public tree of charge. It emonth-bore 48-pounders in their stead and this is estimated that above 50,000 more worldgments gon, with a number of rified 24 pounders, had been have to be made to complete the work to the prethe armament used on the Austrian side while the sent time. Mesers Greenwood, and Hindmarch Italians had a large number of rifled 150-pounders. suggest that in future the specifications should be and in the affondators two 300 pounders. Yet absidged as they come into the office. An alphafrom all evidence t a Austrian fire had been by betical index to French patents has been made in for the more effective, and this may, perhaps, he the English language, and a general index to the explained by the fact that they had a considerable reinstific periodicals in the library, and it is ang-

An Invulnerable Coat. We have no cooner come to know the efficiency instances this had become d; the others had either of breech-loaders, then an inventor steps in to requiled or smek in the outer plater. As for the neutralise them. The game of guns versus armour, Affindatore, about whose great deings the Italian which has been played an long on a great scale, papers are faving (one of them gives a detailed must beneatorth he transferred to the case of smalaccount as to how she had cut down and destroyed for fire-aring. We write thus on the authority of the Kaiser), the Austrian officers simply length at lof a report furnished by Le Nord of a remarkable her—indeed, she had tried repeatedly to min the | test, to which the invention of a light cost inline-of-haule ship, but always in vain; the latter | penetrable to muskesry fire has been subjected. had manustived ton well for her; and not only the inventor being M. Charles Remard, with severely shaken her by a couple of well-applied whose invention rumque has for a few weeks been broadsides, but even run into her horself, nearly busy, and with regard to which a brief persymph has already appeared in our columns. According got enough. What the Austrians were proudest to L: Nord the trini look place two days ago at for was the fact that the whole of their moteries | the Belgian Tir National, in presence of M. ships, engines, arabine-plating, and guns-was or Dailly, president of the competition, and of a Austrian production, and had withstood the test great number of marksmen. The experiment was of real service admirably. As to their feeling for made with a cavalry carbine, charged with three their leader, Tegethoff, I need not say a word; grammes and a half of powder, and the conical such cheering as on the announcement that the ordonnance ball for that, arm. The earbine, have Emperor had promoted him to a Vice-Admiral I log has tasted and regulated, was placed upon a nover heard before either affoat or on shore. I stand pointed at the level ut the breast. M. had almost forgetten to say that the Austrians Bernard placing himself at the distance of a hunhad initated the Americans in protecting the vital | dred meses, commenced by taking off his cost, parts of their wooden ships by and our chains out- and showed that bettern his breast and his copote side, haproving this in some instances by a num. | there was absolutely nothing but his shirt and his ber of rails fixed inheard. The late battle will, wistcoat. He then put on his capute, which is a indeed, be a fraitful cause for discussion to navel flowing garment talling to the ground, and covercircles. I came on with the fact to Pola, where ed his head with a steel casque. The shot was part of is anchired on the 21d, leaving a strong than fired. The public were greatly moved when or equation emissing outside; thence I came to they appeared to see M. Bernard stupper and of Trieste in a Lloyd's steamer. On the whole way stupping to piec up the ball, which had struck birn a little shave the waiet and to the left side. the hall, deadened seningt the stuff, had fallen as his feet, and he came running towards us to show it. At a short distance he threw the hall to the state of things in Austria which followed the marksmen, crying to these not to approach. Not yet having taken out a patent, M.
